SWEENT LLC

Capability Statement | SDVOSB · VOSB · HUBZone · GSA MAS 47QRAA25D0024

Software engineering, accessibility, AI, and cloud modernization for federal, state, local, and higher-education clients · September 2026

Sweent LLC is a Service-Disabled Veteran-Owned Small Business and SBA HUBZone firm delivering software engineering, data services, cloud modernization, accessibility compliance, and IT staff augmentation to federal, state, local, K-12, and higher-education customers. We hold fourteen active award vehicles, including GSA MAS, federal blanket purchase agreements on which we are the prime, and prequalified master contracts in multiple states. All work is performed by a 100% US-based workforce.

CORE COMPETENCIES

- **Software Engineering & Modernization** — full-stack development (React, Angular, Node.js, Python, .NET), legacy system migration, microservices, DevOps and CI/CD
- **AI & Intelligent Automation** — LLM integration (IBM watsonx, AWS Bedrock), retrieval-augmented generation over controlled document sets, citation-backed decision support, process automation
- **Accessibility & Section 508 Compliance** — DHS Trusted Tester methodology, WCAG 2.1 AA assessment and remediation, ACR/VPAT authoring, assistive-technology validation (NVDA, JAWS)
- **Cloud Infrastructure** — AWS GovCloud, Azure, Docker, Kubernetes, Terraform, serverless architecture, managed hosting and disaster recovery
- **Logistics & Reference Data Services** — large-scale data pipeline engineering, vehicle attribute and VIN decoding, data quality and reconciliation
- **Web, UI/UX & Brand** — enterprise design systems in Figma, marketing and campaign sites, headless and traditional CMS, bilingual EN/ES communications
- **IT Staff Augmentation** — developers, analysts, designers, and PMP-certified project managers; qualified candidates in 5–7 business days, E-Verify compliant
- **Program & Project Management** — enterprise PMO support, Agile and hybrid delivery, portfolio reporting, stakeholder management

Collier County Public Schools
ITB 26-138 · Jul 2026 – Jun 2027

Albuquerque Public Schools
APS20197 · 2026–2027 + 3 renewal years

PAST PERFORMANCE

Kansas Dept. of Health & Environment
Contract 59978 | awarded 05/2026 | 5-year term
Prime, in delivery. Migration of the Kansas Information for Communities (KIC) public health data query application from legacy PHP/Linux to Sweent-managed AWS at byte-identical parity, plus Section 508/WCAG 2.1 AA remediation, security hardening, disaster recovery (24-hour RTO/RPO), P1 response within one hour, and five-year managed hosting.

Federal Retirement Thrift Investment Board
BPA FRTIB1-26-A-0003 | 2026–2031
Prime, in delivery. Section 508 Compliance Support Services: assessment and remediation against a 1,274-page baseline, assess-only support for TSP.gov captioning and audio description. Committed to 100% self-performance and a two-tier zero-defect QC gate validated with NVDA and JAWS.

City of Daytona Beach
RFP 2624 | firm-fixed | 2026
Prime, delivered. Native iOS/Android and web applications with a custom CMS, augmented reality, GIS mapping, multi-channel notifications, and a retrieval-augmented AI assistant; WCAG 2.1 AA throughout.

New Mexico State University
2026-RFP-765 | 2026–Present
In delivery across three task orders: enterprise PMO staff augmentation, IT application modernization engineering (Rails to React/Next.js/Node.js, Oracle security remediation, Docker/Kubernetes), and enterprise UI/UX redesign across the university directory, orientation, and alumni applications.

Albuquerque Public Schools
Agreement APS20197 | 2026–2027 + 3 renewal years
Prime, under contract. Canvas open-source LMS maintenance and development support on tiered response-time SLAs.

Deloitte Consulting LLP
2021–2025
Web development across multiple divisions, Figma-to-code production, Adobe Analytics integration, and WCAG/Section 508 accessibility remediation.

DXagency
2022–2023
Social media analytics platform in Node.js with multi-platform API aggregation and custom dashboards.

KEY DIFFERENTIATORS

Allied & Coalition Planning AI

Sweent is an industry participant in NATO's Innovation Continuum 2026 (IC26) under the Allied Command Transformation Innovation Hub, contributing to the Unlocking Planning Potential workstream alongside the NCI Agency and international industry partners. Sweent independently developed and self-funded DoctrineDesk, a retrieval-augmented AI platform producing citation-backed, confidence-rated planning briefings from structured doctrine, demonstrated to NATO staff in August 2026. Sweent retains all intellectual property in the platform.

Federal Prime with Executed Section 508 BPA

Sweent holds a single-award federal BPA for Section 508 Compliance Support Services, won on technical acceptability established by DHS Trusted Tester certification, with one-hour cyber incident notification and 100% self-performance.

Veteran-Owned and Mission-Aligned

Sweent was founded and is led by a United States Marine Corps veteran. Our SDVOSB, VOSB, and HUBZone certifications support federal small business and Veterans First participation goals; all three renew on 07/04/2027.

Proven Legacy Migration and Managed Hosting

For the Kansas Department of Health and Environment we migrated a legacy public health portal of approximately 250 million records to Sweent-managed AWS at byte-identical parity, with Section 508 remediation, security hardening, disaster recovery, and a five-year managed hosting term.

Logistics Reference Data at Federal Scale

Our GSA/FAS blanket purchase agreement delivers vehicle attribute and VIN decoding across a federal fleet exceeding 525,000 vehicles — direct experience in the reference-data normalization, quality control, and pipeline engineering that transportation and mobility systems depend on.

Surge Staffing Readiness

Our IT staff augmentation practice delivers pre-vetted, E-Verify-compliant professionals within 5–7 business days. We placed a PMP-certified Senior Program Manager into NMSU's Enterprise PMO within days of award.

KEY PERSONNEL

Julian A. Tejera
Principal Software Consultant
United States Marine Corps veteran. Ten-plus years in full-stack enterprise development, federal procurement, cloud modernization, and AI integration. DHS Trusted Tester for Web (TT-2607-09378); Team Lead on the FRTIB 508 BPA.

Rita Gonzalez
Director of Design and Technology
Seventeen-plus years in UI/UX, branding, design systems, and WCAG accessibility. Design lead on the City of Daytona Beach digital platform and on New Mexico State University's enterprise UI/UX redesign. Figma and Adobe Creative Suite.
